

ADVERTISING PLAYER

With 25 years of experience in the information technology sector and sales in over 32 countries worldwide, World Trade Display has all the necessary resources to ensure the realization of digital projects of any size to allow companies to compete in their own market reference.

The offer includes the design and direct supply of displays in different interpretations, as well as the possibility of carrying out custom projects with specific requests on any digital asset; starting from the normal open frame monitors only visualization in industrial version to get to the most engaging interactive displays in different and multiple technologies; moving from the most complex videowalls to reach the advertising floor standing players, the latter increasingly widespread in the public spaces of the various merchandising sectors today, with a guaranteed technical coverage and an absolutely innovative design.

The World Trade Display mission is to offer the tools and an overview to create revolutionary interactive ideas that make companies more competitive, in all those sectors such as Vending, Gaming, Digital Signage or others, with different solutions by Touch Monitor, Open Frame, Touch Screen, Digital Signage Display, Interactive Table, Advertising Player, Self-Service Kiosk and Videowall.
